

EU4Energy: CLEEN - Civil society Local Energy Efficiency Network

PROJECT DURATION: 2015-2018

BUDGET: €993,343

PROJECT WEBSITE: <http://cleenet.org>

Brief Description

Building a sectorial regional partnership of civil society organisations in four Eastern Partnership countries focusing on energy efficiency.

Countries covered: Armenia, Georgia, Moldova, Ukraine.

Objectives

The project aims at achieving the following:

- Strengthening the capacities of civil society organisations (CSOs) to monitor local policies and budgets;
- Increasing cooperation with local authorities and stakeholders;
- Encouraging policy dialogue;
- Raising awareness on energy efficiency.

Actions in brief

The project activities have been carried out to achieve the following results:

- Training of CSO staff in the four countries to enhance their skills to contribute to public policy analysis, participate in developing local strategies and share knowledge and skills with others;
- Using newly acquired skills, the CSOs will promote reform and public accountability towards energy efficiency;
- Supporting one sectorial regional partnership event for CSOs to share experiences, serve as networking opportunity for CSOs, to replicate local energy practices and strengthened advocacy impact;
- Sub-granting to local CSOs with a focus on monitoring, public budgets and policies.
